## JBPHH BASE OPERATIONS & SERVICES UPDATE

As the situation evolves regarding the spread of COVID-19, JBPHH is working daily to assess and implement measures to protect our service members, civilians, and their families. We have moved to **Health Protection Condition Charlie**. You should be seeing ongoing changes geared toward increasing social distancing. This is expected to continue over the coming days and weeks. The following is the status of MWR, accommodations, food service, retailing, and other operations:

### CHILD DEVELOPMENT CENTERS and CYP SERVICES:

Effective, Monday, 30 March, Child and Youth Programs at JBPHH will change to CYP contingency operating plan - Level 2. Level 2 operations are for mission essential / critical employees only. Parents who believe they fall into this category will need to fill out the attached form and have an authorized command representative sign it.

To effectively accomplish and manage level 2 operations, Child Development Center operations will be consolidated into two locations - Wahiawa and Center Drive. School Age Care Programs will be consolidated into our Hickam location. This will also take effect Monday, 30 March with the start of business.

Parents should continue to work with their current centers if they have questions and should identify themselves as mission essential / critical (if applicable) as soon as possible so we can plan for your attendance Monday. Forms should be brought into your respective center(s) by close of business this Friday if possible or bring to the appropriate location (based on the consolidations above) on Monday.

If any parents have any questions that they feel aren't being adequately addressed, they can contact CYP Management at the following numbers: 907 322 9658 or 808 375 1657.
