Hawaii

Subj: FY14 ELECTRICITY BILLING RATE TOWNHALL MEETING

1. Starting 1 October 2013 (FY14), the Naval Facilities Engineering Command, Hawaii (NAVFAC Hawaii) billing rate for electricity is forecast to increase significantly from the current FY13 rate of \$263.47 per MWH (plus surcharge for Third Party and Private Party) on the island of Oahu. This FY14 rate will be applied to all accounts serviced by NAVFAC Hawaii.

2. The higher billing rate is necessary to ensure full cost recovery of NAVFAC operating costs.

3. We understand that the higher costs may be challenging for many. However, the increases are unavoidable. To assist customers in understanding this rate increase, NAVFAC Hawaii will host a Town Hall Meeting on 21 February 2013, 1300 at Hickam Memorial Theater, Joint Base Pearl Harbor-Hickam. All commands, Military and non Military tenants are welcome and encouraged to attend. A presentation will be made and then questions and answers addressed.

A handwritten signature in black ink, appearing to read "M. D. Williamson", is written over a horizontal line.
