COMMANDER  
NAVY REGION HAWAII  
850 TICONDEROGA ST STE 110  
JBPHH, HAWAII 96860-5101

07 Nov 2019

### ENVIRONMENTAL POLICY STATEMENT

Navy Region Hawaii's mission of providing, maintaining, and modernizing shore infrastructure and service support to enable Navy and Air Force operations in the Hawaii area of responsibility shall be accomplished in a protective manner and compliant with environmental regulations. Navy Region Hawaii is committed to:

- Complying with environmental laws, regulations, and other applicable requirements by utilizing the Environmental Management System (EMS) as a tool to communicate environmental responsibilities, and to establish and track environmental objectives and targets.
- Achieving improvements in the compliance program and hazardous waste management.
- Continuing prudent shore-side infrastructure improvements and modernization to reduce environmental impacts.
- Preventing or minimizing pollution at its source to reduce the generation of waste.
- Providing continual improvement of our environmental performance to strengthen community trust while applying prudent business principles.

It is the responsibility of all personnel, all commands, and all contractors to help protect Hawaii's environment. As a team, you have my commitment that we will demonstrate environmental stewardship by complying with the environmental requirements, limiting and conserving resources, and reducing our overall impact on the environment. This policy is an important responsibility for all personnel, customers, and stakeholders to share and communicate to others.

A handwritten signature in black ink, appearing to read "R. B. Chadwick, II", is positioned above the printed name.
