The screenshot displays the IBM Maximo Assets application interface. At the top, the user is identified as 'ROCHELLE R PENNEY'. The main navigation bar includes tabs for 'List View', 'Asset', 'Spare Parts', 'Safety', 'Meters', 'Specifications', 'History', 'Work', 'Service Address', and 'Map'. The 'Map' tab is highlighted but is disabled, as indicated by a red arrow pointing to it from a text box. A system message dialog is open in the center, displaying the error: 'System Message: BMXAT0284E - The map component cannot be configured because the Map Manager configuration for the current user default insert site was not defined. Specify the default insert site in the Map Manager application.' The dialog includes a 'Close' button. The left sidebar contains various navigation and action options, including 'Go To Applications', 'Available Queries', 'Common Actions', and 'More Actions'.

This tab not available; not needed for JBPHH to execute work.
